Press Release

MERCER RESIDENTIAL SERVICE'S MUD PIKE HOME IS DEFICIENCY FREE

Local home for the developmentally disabled given high marks by state Medicaid surveyors

Celina, Ohio: The Mud Pike home received a perfect Medicaid score after its programs were reviewed over a three day period by a state survey team from the Ohio Department of Health. The Mud Pike Home is a long-term care facility called an Intermediate Care Facility for people with developmental disabilities (ICF/MR). An ICF/MR is licensed by the Ohio Department of Developmental Disabilities, to be operated by a specific provider at a specific location. The Ohio Department of Health certifies the licensed facility as meeting the Federal requirements for funding. The provider is responsible for all aspects of care for the individual, including financial matters, transportation, habilitation, and medical needs. The Mud Pike facility is one of many home's and support services that are operated by Mercer Residential Services, Inc. (MRSI) of Celina, Ohio.

“Being Deficiency Free is a great accomplishment in this business, and I would like to salute all our wonderful staff who has worked hard to accomplish this wonderful goal.” Garry Mosier, Executive Director, MRSI said. There are very few homes in the State of Ohio that get this top rated distinction.

MRSI operates group homes, provides in-home support staff, respite services, adult day services, and mental health housing in Auglaize, Darke, Mercer, and Van Wert Counties. For more information see our web site at www.mrsinc.org or contact us 419-586-4709.
